4/23/94

Dear Ed,

Glad you are doing so well. Better than I'd gathered from Chaslock, who said you are doing well. Five miles a day! Great. But don't increase anything rapidly. You've got plenty of time—take it!

Prepare in advance for bad weather. Find a spot you can continue indoors, like a mall.

I'm so glad you realize I was not just giving you a pep talk. It is true and when people come to realize that it is they are so much better off for it.

Thanks for anything you can do with the book. I've still not heard of any advertising of p.r. effort, they've not arranged a single talk show for me, etc. But the reaction I've gotten is 100% good, some better than that.

They should have seen the whole schmear!

If you place any reviews or notices I'll appreciate a copy.

Not a peep from Posner, by the way.

The letters Chaslock's kids wrote the paper are great. He must be doing very well with them and for them. He deserves congrats for it. Glad he ent me a copy.

Best,
